WORK & RESEARCH EXPERIENCE

Data Scientist   Oct. 2019
  Data Hub Team, Office of Digital Information, Korea University   – Present
  Advisor: Gyu-Tae Kim, Ph.D.

  Project: AI Based Psychological and Academic Support Program for College Students in COVID-19
  - Government-funded project to aid at-risk students in terms of mental health and academic achievement
  - Built early prediction models based on deep learning algorithms to identify at-risk students using Learning Management System (LMS) log data; Conducted statistical analyses to examine "*digital divide*" among college students by social economic status; Published and submitted research articles; Delivered presentation at forum.

  Project: AIKU: Recommendation System based on ML/DL in the Context of Higher Education
  - Government-funded project to develop A.I. services to recommend lectures, majors, and extra-curricular activities for college students based on personal interests.
  - Developed core machine learning and deep learning algorithms; Applied for two patents (*primary inventor*); Contributed to UI/UX designs; Participated in publication process.
    * Awarded as the representative and best program among +50 programs for the University Innovation Support Project; Covered by +10 media outlets as the first official A.I. service at college provided in South Korea.

Clinical Researcher   Feb. 2019
  Student Counseling Center, Korea University   – Sep. 2019
  Principal Investigator: Young-gun Ko, Ph.D.

  Project: Visualizing Self-image Using Reverse Correlation (RC) Method
  - First evidence to support the validity of the RC method to visualize how people perceive themselves.
  - Initiated and prepared manuscript from conceptualization to dissemination (*first author*); Built on/off line RC tasks; Tested validity and usefulness of *RC-outputs* by using self-reports and facial photos.

  Project: Borderline Personality Features and Emotional Recovery
  - Investigation of the association between borderline personality features and prompt emotional recovery
  - Involved in developing assessment to measure prompt emotional recovery by assessing residual antipathy to neutral face followed by hostile faces; Built computerized experiments; Generated facial stimuli using facial morphing; Participated in publication process (*second author*).

Post-Master Research Associate   Mar. 2018
  Mentoring Counseling Center of College of Liberal Arts at Korea University   – Jan. 2019
  Advisor: Young-gun Ko, Ph.D.

  Project: Validation of the Korean Version of Positive Mental Health Scales
  - Empirical studies to validate the two-factor structure of Positive Mental Health Scales in South Korea
  - Conducted exploratory and confirmatory factor analyses using data obtained from adolescent and sexual-minority samples; Wrote the results section of manuscripts.

  Project: The Effects of Ego Depletion and Psychological Burden on Fatigue in Everyday Life
  - Ecological Momentary Assessment (EMA) study to explore the moderating effect of overt and covert narcissism on the relationship between psychological burden and fatigue in daily life.
  - Conducted multilevel analyses to handle the nested structure of experience sample datasets; wrote and revised a significant portion of the manuscript (second author).

Clinical Psychology Master's Program Student　　　　　　　　　　　　　　　　Sep. 2015
Department of Psychology, Korea University　　　　　　　　　　　　　　　　　　　– Feb. 2018
Advisor: Young-gun Ko, Ph.D.

Project: Implicit Accommodation and Romantic Relationship Longevity
- Longitudinal study to compare the predictive powers of implicit and explicit accommodative behaviors
- Developed behavioral measure to assess implicit accommodation using automatic facial reactions to partner's angry face; Employed automatic facial coding algorithm to evaluate valence of facial responses; Delivered presentation at conference; Wrote manuscript (first author).

CLINICAL & PRACTICE EXPERIENCE
